Foreword

Welcome to our Consultants & Services Directory.

As Chief Executive of St John & St Elizabeth Hospital, I am proud to share the latest developments within our organisation and how your ongoing support helps us continue our mission of delivering exceptional, compassionate healthcare.

We are delighted to announce the recent expansion of our paediatric services into a newly developed, private Family Clinic at the front of the hospital. The facility includes eight private consulting rooms, two fully equipped treatment rooms, a dedicated child-friendly reception area with a playroom, and a bespoke 10-bed ward in theatres, designed specifically with children and young adults in mind. We are now able to offer comprehensive outpatient care and day surgery for younger patients in a calm, supportive environment. This expansion reflects our ongoing commitment to meeting the evolving needs of the communities we serve while upholding the highest standards of clinical care.

St John & St Elizabeth Hospital is unique in the private healthcare sector. While we operate as a leading independent hospital, we are also a registered charity. At the heart of our site—and our values—sits St John's Hospice. The hospice provides expert palliative and end-of-life care to individuals with life-limiting conditions across North West and North Central London.

Thanks to the income generated by our hospital services, and to the referrals and trust of healthcare professionals like you, we are able to provide free, holistic care to over 4,000 patients and their families every year—both within the hospital and out in the community.

So, every time you send a patient to us, we can help more people when they need it most.

Every referral we receive from a primary care professional like yourself, not only allows us to continue providing care to your patients, but also helps to fund our on-site hospice, St John's.

With my best wishes,

Simon James, CEO

About us

CPD Education Programme

Our well-established webinar programme regularly sees attendees join twice a month for CPD accredited online learning events.

Subscribe through our website (hje.org.uk/primary-care-clinicians) and stay up-to-date with upcoming online and in-person events.

CPD Hour (One Hour)

Earn one CPD hour on a weekday evening.

CPD Annual Symposium (Six Hours)

Gain up to Six CPD hours on a Saturday.

For our referring partners

If your practice is within our local area, we may also be able to provide these special benefits:

Basic Life Support We can arrange for a trainer to visit your practice to give Basic Life Support (BLS) level 1 and level 2 training to both clinical and non-clinical staff.	Practice-based CPD We provide focused and intimate lunch & learns for your practice with our field-leading specialists. You decide the format that suits your practice's individual needs.
---	--

For consultant specialists

Our Practising Privileges team works to promote clinical excellence and supports our consultants in delivering the highest levels of patient care.

If you are considering an application for a license to practice at St John & St. Elizabeth Hospital, please contact the Practising Privileges team directly. Include a cover letter in your application, with an outline of your proposed scope of practice addressed to our CEO, Simon James.

Based on your area of specialty, our team will be able to guide you further and help facilitate your application. Once completed your application will be reviewed.

You will then be invited to a meeting to discuss your application. Following your meeting, and if supported by our Medical Director, we will consider your application for practicing privileges.

If your application is successful, our compliance team will assist in maintaining your regulatory documentation throughout your time with us.

Please get in touch if you would like to discuss the process further.

A brief history

Leading charitable hospital in London

Founded in 1856 under the care of the sisters of Mercy, an order of nuns who worked with Florence Nightingale in the Crimean War, our hospital pioneered the use of advanced nursing techniques to help the sick, the dying and the needy in the local community.

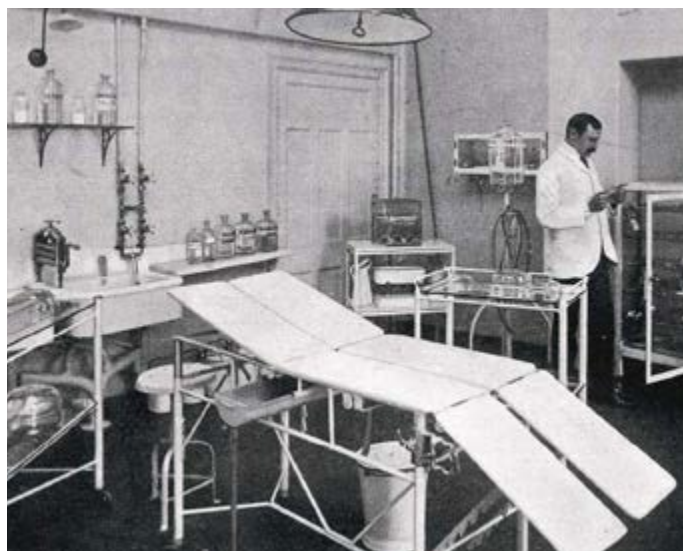

Now, all these years later, our ethos remains at the heart of what is regarded as a unique London hospital. We are a private hospital but are also a registered charity. This means we use our income to support our charitable objects and give any surplus directly to our hospice.

Our organisation takes great pride in our heritage, which assures patients of a commitment to care and compassion in the delivery of their healthcare.

St John's Hospice is the main beneficiary of St John &

St Elizabeth Hospital. In addition to providing financial support, our relationship is crucial to the unique model of care the hospice can provide to patients.

All X-rays, Pathology, and Pharmacy are delivered on-site, enabling us to offer a streamlined experience for our patients. The aim of both is the same now as it was nearly 170 years ago – to provide the highest quality care for those who need it most.

Our staff

Nursing excellence

Our hospital strives to be the premier option for patients seeking the highest quality healthcare. At the centre of this is our nurses. We are renowned for our exceptionally high standards of nursing care and are constantly striving to improve our patients' experience. In 2024 patient satisfaction survey, 97.8% rated their experience of our service as 'Good' or 'Very Good'.

Field leading clinicians

From our specialist therapies team to our surgeons, our clinicians are of the highest standard. Each of our specialist consultants are experts in their field. The feedback in our patient satisfaction surveys has consistently highlighted that over 98.4% of patients are 'likely or extremely likely,' to recommend our consultants.

Putting people first

All our staff provide exemplary care to each patient, and when you walk around our hospital, you will quickly notice the warm and welcoming atmosphere. Our team is close-knit, and works together to always go above and beyond for each and every patient.

The overwhelmingly positive results of our recent patient satisfaction survey show how everything we do is centered on putting people first.

St John's Hospice

St John & St Elizabeth Hospital

Enabling people to live well for as long as possible.

St John's Hospice provides free, quality, holistic care to over 4,000 patients, families, and caregivers each year.

While based within St John and St Elizabeth Hospital, the hospice's support extends across Westminster, Brent, Camden, Hammersmith & Fulham, Islington, and Kensington & Chelsea.

In addition to inpatient care, it offers community-based services, social and welfare support, bereavement counselling, and day services through its Wellbeing Centre. Notably, St John's is the only hospice in London to provide 24/7 Hospice@Home care and to operate its own dedicated ambulance service.

Referrals to St John's Hospice

Referrals are made by a patient's GP, hospital doctor, nurse specialist and community nurse or by other professionals working across health and social care services.

For child bereavement support, St John's also accepts referrals from parents, carers, teachers or other professionals working across health and social care. Young people over 16 can refer themselves.

To find out more about St John's Hospice, our care and referrals process, please visit **www.stjohnshospice.org.uk**. Alternatively, please call us on **020 7086 4040** or email **hospice.info@hje.org.uk**.

Urgent Care Clinic

St John & St Elizabeth Hospital

Urgent Care Clinic

- Our walk-in Urgent Care service is to treat minor non-life-threatening injuries and illnesses for adults and children from the age of one.
- The new clinic is based next to our upgraded imaging department, so patient access to this service is simple and streamlined. This is making a huge difference to patients who need urgent help or who have difficulty walking.
- £130 – consultation with a doctor.

Our Urgent Care Clinic

Call now: **0207 432 8300**

Email: **ucc@hje.org.uk**

Walk-in service

(no appointment required)

Monday to Friday 8am - 8pm

(last patient seen at 7pm)

Saturday and Sunday 8am - 6pm

(last patient seen at 5pm)

We can't treat children under the age of one, or children that are acutely unwell. If your baby is sick, please call 999 or go to your local A&E without delay.

Amazing doctor, everything you would want from a paediatric doctor and more.

11 Apr 2024 verified patient

Patient seen for: **Paediatric Cardiology**

Dr Anish Bhuvu

PhD MRCP MA (Cantab.) MSc MBBS

Consultant Cardiologist

Special Interests: Syncope, palpitations; heart rhythm care; Cardiac devices; Cardiac MRI.

Adult/Paediatric: A

Dr David Brull

MBBS, BSc, MD, FRCP

Consultant Cardiologist

Special Interests: General cardiology, percutaneous coronary intervention (PCI) for the treatment of coronary artery disease, cardiopulmonary exercise testing in perioperative risk assessment for patients prior to elective general and bariatric surgery.

Adult/Paediatric: A

Dr Richard Carroll

MB, ChB, MRCP, MPhil

Consultant Cardiologist

Special Interests: General and interventional cardiology, (coronary angioplasty and stenting) and management of angina. Dual accredited in acute internal medicine. Specialising in non-invasive cardiac imaging test using CT coronary angiography and cardiac CT.

Adult/Paediatric: A

Dr John Gerry Coghlan

MD, FRCP

Consultant Cardiologist

Special Interests: Invasive cardiology, pulmonary hypertension, connective tissue disease associated heart disease.

Adult/Paediatric: A

Dr Joseph Davar

MD, PhD, FRCP, FACC

Consultant Cardiologist

Special Interests: Non invasive diagnosis and management of cardiac pathologies. Non invasive cardiac investigations: Echo, Stress echo (Treadmill Stress Echo, Dobutamine Stress Echo, Pacing Stress echo, Dobutamine-Pacing Stress Echo), Cardiac CT (CT coronary angiography and CT for Heart Valve Disease). Pathologies: coronary artery disease, heart valve disease, heart failure, hypertension, cardiomyopathies (dilated, hypertrophic etc.). Chemotherapy induced cardiomyopathy and carcinoid heart disease.

Adult/Paediatric: A

Dr Oliver Guttman

MA (Cantab), MBBS (London), FRCP (UK) FESC, MD (Res), Dr.med.

Consultant Cardiologist

Special Interests: General adult cardiology (chest pain, shortness of breath, palpitations, high blood pressure, high cholesterol). Cardiomyopathy and coronary interventions (coronary angiography and stenting). Myocarditis.

Adult/Paediatric: A

Dr Anna Herrey

MD, PhD, FRCP

Consultant Cardiologist

Special Interests: General cardiology and cardiac imaging (cardiac MRI, stress imaging), obstetric cardiology (pre-conception counselling, cardiac problems in pregnancy), heart muscle disease (cardiomyopathy).

Adult/Paediatric: A

Dr Paramjit Jeetley

MBChB, MD, MRCP

Consultant Cardiologist

Special Interests: General cardiology, echocardiography, valvular heart disease, heart failure.

Adult/Paediatric: A

Dr Tushar Kotecha

MBBS, FRCS (Tr&Orth), PhD, MBChB, MRCP (UK)

Consultant Cardiologist

Special Interests: General cardiology (chest pain, shortness of breath, palpitations, high blood pressure, high cholesterol, heart attack, acute coronary syndromes), interventional cardiology (coronary angiography and stenting), pulmonary hypertension.

Adult/Paediatric: A

Dr Tim Lockie

MBChB, BSc (First Class Hons) PhD, MRCP, FESC

Consultant Cardiologist

Special Interests: Ischaemic heart disease, chest pain, angina, myocardial infarction, heart failure and revascularisation, stenting, angioplasty, heart attack, general cardiology, arrhythmia management, palpitations, dizziness, shortness of breath, syncope, hypertension, secondary prevention.

Adult/Paediatric: A

Professor Roby Rakhit

BSc, MD, FRCP

Consultant Interventional Cardiologist

Special Interests: General and interventional cardiology.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Dr Joseph Tomson

MD, FRCP

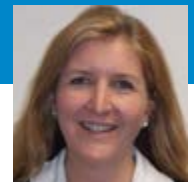

Consultant Cardiologist

Special Interests: Cardiac arrhythmia, implantation of cardiac devices and pacemakers, evaluation of loss of consciousness (syncope), atrial fibrillation and heart failure.

Adult/Paediatric: A

Dr Carol Jane Whelan

MB, ChB, MD, FRCP, FESC

Consultant Cardiologist

Special Interests: Coronary artery disease, heart failure, valvular heart disease, stress echocardiography, transoesophageal echocardiography, cardiac amyloidosis.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Chest & Respiratory Medicine

One of the most revolutionary and innovative centres in the country, dedicated to diagnosing all respiratory disorders.

Staffed by some of the finest physiologists and consultants, we offer expert care in a calm and caring environment as well as fast and accurate diagnosis using the latest state-of-the-art equipment.

Some of the conditions we assess include asthma, chronic obstructive pulmonary disease, sarcoidosis, interstitial lung disease, sleep disordered breathing and allergy.

Services include:

- Spirometry
- Full lung function
- Reversibility
- FeNO
- Allergy testing
- Mannitol
- Oxygen assessments
- Sleep studies
- CPEX – Cardio-pulmonary exercise testing

★★★★★ 5

Everyone from my wonderful surgeon & all fabulous staff doing their jobs, second to none. Very happy with everything & everyone, Thankyou SO much ❤️

10 Feb 2025 verified patient

Patient seen for: **Blepharoplasty (Eye Lid Surgery)**

★★★★★ 4.75

My visit to the hospital was a very positive one. From the moment I arrived, the staff were friendly, welcoming, and efficient. The check-in process was smooth, and I didn't have to wait long before being seen. The medical team was attentive and took the time to explain everything clearly, which helped put me at ease. The environment was clean, calm, and well-organized, making the whole experience much less stressful

25 Apr 2025 verified patient

Patient seen for: **Ptosis Repair** **Minor Eyelid Procedures**
Droopy Eyelid (Ptosis)

★★★★★ 5

It was the first time I ever had surgery and the experience was a lot easier because of the support and positivity of the hospital team.

NHS: Chelsea and Westminster Hospital NHS Foundation Trust (West Middlesex University Hospital)

Adult/Paediatric: A&P

London Foot & Ankle Centre

**LONDON
FOOT AND
ANKLE CENTRE**

The London Foot and Ankle Centre (LFAC) was founded in 2003 by respected surgeon Mark Davies, who wanted to improve treatment standards by creating a service concentrating wholly on the foot and ankle. At that time, foot and ankle surgery was in the early stages of development as a distinct specialty in the UK.

Today, LFAC is an internationally renowned clinic, attracting patients from around the world and working with Premier League football clubs, UK Athletics and many more elite sports people. While other specialist services have been established over the years, LFAC remains distinctive in terms of its longevity, scale and reputation as a leader in foot and ankle treatment.

Services include:

- Achilles tendon rupture
- Achilles tendonitis
- Ankle osteoarthritis
- Bunions - hallux valgus
- Chronic ankle instability
- Deformed toes
- Flat feet
- Hallux rigidus - stiff big toe
- Metatarsalgia - forefoot pain
- Midfoot arthritis
- Plantar fasciitis - heel pain
- Sports injuries
- Tendinopathy

The LFAC consultants: Matthew Solan, James Davis and Martin Klinke.

Call now: **0207 806 4060** | Email: info@hje.org.uk

Mr Antony Kontos

BSc(Hons), MSc, DPodM, FRCPodS,
FFPM, RCPS(Glasg)

Podiatric Surgeon

Special Interests: Orthotics, footwear and day case surgery. Podiatry and diabetic foot problems.

Adult/Paediatric: A

Mr Matthew Solan

FRCS (Tr&Orth)

Consultant Orthopaedic Surgeon

Special Interests: Foot and ankle complaints in adults and children. He has a particular interest in the treatment of stubborn heel pain. He established and runs the UK's first 'One-Stop' clinic for LFAC for heel and ankle problems such as ankle tendonitis and plantar fasciitis.

NHS: Royal Surrey County Hospital

Adult/Paediatric: A&P

Haematology

We offer expert diagnosis, management, and treatment of a wide range of haematological conditions, including anaemia, abnormal blood counts, ITP and haemolysis, blood clots, or haemophilia and haematological malignancies.

Haematology at St John & Elizabeth Hospital encompasses comprehensive care for patients with blood disorders. Our multidisciplinary team uses state-of-the-art diagnostic techniques and personalised treatment plans to address the full spectrum of haematological conditions. We ensure each patient receives the highest standard of care tailored to their specific needs.

Our haematology department is dedicated to advancing the understanding and treatment of blood diseases. Through ongoing research and a commitment to medical excellence, we aim to improve patient outcomes and quality of life.

Call now: **0207 806 4060** | Email: **info@hje.org.uk**

Dr Frederick Chen

FRCP, FRCPATH, PhD

Consultant Haematologist

Special Interests: Anaemias and abnormal blood counts, myeloproliferative neoplasia, low grade haematological malignancies, haemato-oncological diagnostics, Immunohaematology, ITP, haemolytic anaemias, iron metabolism disorders, haemochromatosis, iron therapy.

NHS: Barts Health NHS Trust

Adult/Paediatric: A

Dr Ali Rismani

FRCP FRCPATH PhD

Consultant Haematologist

Special Interests: Anaemias and abnormal blood counts, myeloproliferative neoplasia, low grade haematological malignancies, haemato-oncological diagnostics, Immunohaematology, ITP, haemolytic anaemias, iron metabolism disorders, haemochromatosis, iron therapy.

Adult/Paediatric: A

Dr Anastasia Chew

MBChB, MRCP, FRCPATH

Consultant Haematologist

Special Interests: Investigation of abnormal full blood counts, management of iron deficiency anaemia, investigation of abnormal clotting and peri operative anticoagulation management. Investigation and management of malignant haematology (such as chronic lymphocytic leukaemia, chronic myeloid leukaemia).

NHS: Chelsea and Westminster Foundation Trust

MBBS, FRCS (Tr and Orth), EDHS

Consultant Orthopaedic, Hand & Upper Limb Surgeon

Special Interests: Hand, wrist and elbow surgery, trauma and elective in both adults and paediatrics. Arthritis surgery, joint replacements, arthroscopic surgery and reconstruction surgery.

Adult/Paediatric: A&P

Mr Matt Ives

BSc, MBBS, FRCS (plast)

Consultant Plastic Surgeon

Special Interests: Elective hand and hand trauma surgery, lower limb soft tissue reconstruction in the context of open fractures and also isolated soft tissue reconstruction, including microsurgical reconstruction and carpal tunnel surgery release.

Adult/Paediatric: A

Mr Tomas Tickunas

MD, FRCS Plast, Dip Hand Surg Eur

Consultant Plastic, Orthoplastic and Hand Surgeon

Special Interests: Adult and Paediatric Hand Surgery (Elective and Trauma), general Plastic Surgery (including correction of deformities, removal of lesions including skin cancer), Paediatric Plastic Surgery and Complex Microvascular Reconstruction (Lower Limb, Major trauma, Hand, Chest reconstruction).

NHS: Queen Victoria Hospital, East Grinstead
Royal Alexandra Children's Hospital, Brighton

Adult/Paediatric: A&P

Professor Abhilash Jain

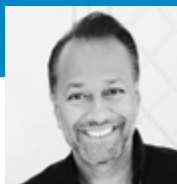

MBBS, MRCS, MSc, PhD, FRCS(Plast)

Associate Professor of Plastic, Reconstructive and Hand Surgery

Special Interests: Hand, lower limb reconstruction and general plastic surgery.

NHS: Imperial College London NHS Trust

Adult/Paediatric: A&P

Mr George Murphy

MA(Cantab), PhD, FRCS(Plast), Dip Hand Surg(Brit)

Consultant Hand & Plastic Surgeon

Special Interests: Hand Surgery, Congenital Hand Surgery, Skin lesions, general plastic surgery, body contouring.

Adult/Paediatric: A

Miss Lauren Uppal

MBChB, MRCSm FRCS (Plast), Dip Hand Surg

Consultant Plastic Surgeon

Special Interests: Hand surgery (Dupuytren's, carpal tunnel syndrome, cubital tunnel syndrome, ganglions, trigger fingers, rheumatoid arthritis, osteoarthritis, Raynaud's). Hand trauma (tendon and nerve repair/reconstruction, fracture fixation, post trauma reconstruction for impaired hand function). Skin surgery (moles, cysts, lipomas, skin cancer, scar revision). Aesthetic surgery (tummy tuck, breast surgery, prominent ears, eyelid surgery, botox, fillers).

Adult/Paediatric: A&P

Hernia

Our Hernia Clinic treats a wide range of hernias. We use the very latest techniques such as mesh free repair, keyhole surgery (laparoscopic) and stitching.

Unlike other hernia centres, our team of expert consultants includes specialists that dedicate themselves solely to the treatment of hernias. As a result, they have unrivalled experience in assessing, diagnosing and treating hernias.

Hernia types treated:

- Hiatus
- Inguinal
- Umbilical
- Femoral
- Incisional
- Spigelian
- Epigastric

Call now: **0207 806 4060** | Email: info@hje.org.uk

Consultant Orthopaedic Surgeon

Special Interests: All aspects of knee surgery including sports ligament and arthroscopic surgery (primary to revision) and realignment osteotomy. Primary to revision knee replacement and primary hip replacement.

NHS: London North West University Healthcare NHS Trust

Adult/Paediatric: A

Mr Charalambos Charalambides

MD, FRCS (Ed), FRCS (Tr and Orth)

Consultant Orthopaedic Surgeon

Special Interests: Foot and ankle surgery, including trauma to the ankle and foot in adults and children.

Adult/Paediatric: A&P

Mr Bob Chatterjee

MBBS, MRCS, MSc (Distinction), FRCS (Tr&Orth)

Specialist Consultant Spinal Surgeon

Special Interests: Treatment without surgery, minimally invasive surgery, sports injuries, spinal problems in the elderly and complex spinal reconstruction.

Adult/Paediatric: A

Mr James Davis

BSc, MBBS, FRCS (Tr&Orth)

Consultant Orthopaedic Surgeon

Special Interests: Foot and ankle disorders.

Adult/Paediatric: A

Mr Michael Elvey

MBBS, BSc, FRCS (Tr&Orth), Br, Dip Hand Surg

Consultant Orthopaedic Hand and Wrist Surgeon

Special Interests: Orthopaedic hand and upper limb surgery.

NHS: Royal Surrey County Hospital

Adult/Paediatric: A&P

Mr Aria Ghassemi

MBBS, MRCS, FRCS, MSc. Dip (Imperial College)

Consultant Orthopaedic and Trauma Surgeon

Special Interests: All foot and ankle complaints.

Adult/Paediatric: A

Professor Damian Griffin

OBE, TD, BM, BCh, MA, MPhil, FRCS (Tr&Orth)

Consultant Orthopaedic Hip Surgeon

Special Interests: Hip preservation surgery such as labral repair, cartilage reconstruction and hip osteotomies, arthroscopic (keyhole) repair of injuries, treatment of early arthritis, and the use of stem cells to repair cartilage damage; special expertise in the management of young adults and athletes.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Mr Nicholas Haden

MA (Cantab), MB, BChir

Consultant Neurosurgeon

Special Interests: Minimally invasive and navigated spinal surgery, craniovertebral pathologies, Chiari malformation, intradural and intramedullary pathologies, spinal cord dysraphism, CSF leaks and thoracic disc prolapses.

NHS: Royal National Orthopaedic Hospital, London

Adult/Paediatric: A

Mr Maxim Horwitz

MBChB, FRCS (Orth), Dip Hand Surg

Consultant Hand and Orthopaedic Surgeon

Special Interests: Children: Common paediatric hand and wrist trauma. Congenital hand surgery. The treatment of hands in people with cerebral palsy, brain and spinal cord injury. Adults: Hand and upper limb trauma including fractures and tendon injury. Arthritis, sports injuries, tendon injury and more (*see website*).

NHS: Chelsea and Westminster NHS Foundation Trust

Adult/Paediatric: A&P

Mr Alistair Hunter

MA, MBBS, MSc, FRCS (Tr&Orth), FHEA Dip Hand Surg

Consultant Orthopaedic Surgeon

Special Interests: All hand, wrist and elbow conditions including fractures, carpal tunnel, syndrome trigger finger, arthritis, sports injuries and Dupuytren's.

NHS: University College London Hospital NHS Foundation Trust

Adult/Paediatric: A

Mr Edward Ibrahim

MBBS, BSc (Hons), FRCS (Tr&Orth), Med DIC

Consultant Orthopaedic Surgeon

Special Interests: Shoulder and elbow surgery, upper limb peripheral nerve surgery.

NHS: Chelsea and Westminster Foundation Trust

Adult/Paediatric: A

Mr Matt Ives

BSc, MBBS, FRCS (plast.)

Consultant Plastic Surgeon

Special Interests: Elective hand and hand trauma surgery, lower limb soft tissue reconstruction in the context of open fractures and also isolated soft tissue reconstruction, including microsurgical reconstruction and carpal tunnel surgery release.

Adult/Paediatric: A

Mr Parag Jaiswal

BSc, MBBS, MRCS, MD (Res), FRCS (Tr&Orth), Honorary Senior Lecturer, UCL

Consultant Orthopaedic and Trauma Surgeon

Special Interests: All aspects of hip and knee problems. A special interest in joint preservation techniques to manage young adult hip and knee pain and minimally invasive hip and knee replacements and revision surgery. Complex trauma in the leg and sports injuries.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Mr Amer Khan

BSc (Hons), MBBS, FRCS, FRCS (Tr&Orth)

Consultant Orthopaedic Surgeon

Special Interests: Knee surgery, sports injuries, arthroscopic, ACL, meniscus, cartilage, arthritis, replacement. Shoulder surgery, sports injuries, instability, arthritis and frozen shoulder. Joint preservation surgery, non surgical management, meniscus transplantation and complex revision knee and shoulder surgery.

Adult/Paediatric: A

Mr Sujith Konan

MBBS, MD (res), MRCS, FRCS (Tr&Orth), Honorary Associate Professor (UCLH)

Consultant Orthopaedic Surgeon

Special Interests: Hip and knee arthroplasty, revision surgery and sports surgery.

NHS: University College London Hospital NHS Foundation Trust

Adult/Paediatric: A

Mr Antony Kontos

BSc(Hons), MSc, DPodM, FRCPodS, FFPM, RCPS(Glasg)

Podiatric Surgeon

Special Interests: Orthotics, footwear and day case surgery. Podiatry and diabetic foot problems.

Adult/Paediatric: A

Mr Stephen Kriss

MPhil, FRCPodS

Consultant Podiatric Surgeon

Special Interests: Foot problems associated with Scleroderma and connective tissue diseases as well as general Rheumatology, pain management and traditional Chinese Medicine.

Adult/Paediatric: A

Mr Marcus Lee

MB, BS, FRCS, FRCS (Orth)

Consultant Orthopaedic and Trauma Surgeon

Special Interests: Orthopaedic training.

NHS: University College Hospital

Adult/Paediatric: A

Mr Alexander Liddle

MBBS, DPhil, FRCS (Orth)

Consultant Orthopaedic Surgeon

Special Interests: Knee and hip surgery, specialising in arthroscopic knee surgery, partial, primary and revision knee replacement and primary and revision hip replacement.

NHS: Imperial College Healthcare NHS Trust

Adult/Paediatric: A

Mr Julian Livingstone

BSc, FRCPodM, FFPM RCPS(Glasg)

Consultant Podiatrist

Special Interests: Developing foot of children but provide care from birth to old age.

Adult/Paediatric: A&P

Mr Nimalan Maruthainar

BSc (Hons), MBBS, FRCSEd (Tr&Orth)

Consultant Trauma and Orthopaedic Surgeon

Special Interests: General orthopaedics and trauma, hip replacement, knee replacement, revision joint replacement and soft tissue knee surgery. Special interest in lysosomal storage disorders and Lowe syndrome.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Mr Reza Mobasheri

BSC, MB, BS, FRCS

Consultant Spinal Surgeon

Special Interests: Back pain, neck pain, sciatica, brachialgia, spinal stenosis, spinal fractures and orthopaedic injuries.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Mr Joyti Saksena

BMSc (Hons), MBChB, MRCS, FRCS (Tr&Orth)

Consultant Hip, Knee and Sports Surgeon

Special Interests: All conditions of the hip and knee, lower limb sports injuries.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A&P

Mr Satya Naique

MS Orth, FCPS Orth, Dip.Orth

Consultant Orthopaedic Surgeon

Special Interests: Hip and knee arthroplasty, complex trauma, limb reconstruction and lengthening. Robotic guided (Navio) knee replacements, open fractures, bone infections, failed fixations and non-union surgery. Circular external fixation (Ilizarov), bone loss managements, deformity correction and more (see website).

NHS: Imperial College Healthcare NHS Trust

Adult/Paediatric: A

Mr Daniel Shaerf

MBBS, BSc, MRCS, FRCS (Tr&Orth)

Consultant Trauma and Orthopaedic Surgeon

Special Interests: All conditions of the hand and wrist, including trauma (fractures of the forearm, wrist, scaphoid, hand), ligament injuries and skier's thumb. Nerve entrapments, open/endoscopic carpal tunnel release and cubital tunnel release. Tendon disorders, Dupuytren's contractures, hand and wrist arthritis and joint replacements of the thumb, hand and wrist, including joint fusion and steroid injections.

NHS: London North West University Healthcare NHS Trust

Adult/Paediatric: A&P

Mr Harold Nwaboku

MBBS, FRCSed, FRCSeng, FRCS (Tr&Orth)

Consultant Orthopaedic Surgeon

Special Interests: Preservation treatments for hip and knee arthritis, stem cell and PRP treatments for hip disorders, arthroscopy, replacement, revision replacement, trauma. Preservation treatments for knee arthritis, ACL reconstruction, meniscus repair or resection and more (see website).

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A

Mr Nitin Shetty

MBBS, Ms, MRCS, M.Phil, FRCS

Consultant Spinal Surgeon

Special Interests: Minimally invasive spinal surgery, back pain, sciatica, degenerative spinal conditions and disk replacement.

NHS: Whittington Health NHS Trust

Adult/Paediatric: A

Mr Abbas Rashid

BSc (Hons), MBBS, FRCS (Tr&Orth)

Consultant Elbow and Shoulder Surgeon

Special Interests: Evidence based treatment of elbow and shoulder trauma, sports injuries and degenerative conditions.

NHS: University College London Hospitals NHS Foundation Trust

Adult/Paediatric: A&P

Mr Ian Sinha

MBBS, BSc (Hons), DIPSEM, FRCS (Tr&Orth)

Consultant Trauma and Orthopaedic Surgeon

Special Interests: Complex orthopaedic fractures, limb reconstruction (circular frames, bone transport, masquelet technique), rib fracture fixation, computer navigated knee replacement, knee ligament reconstruction (anterior cruciate ligament reconstruction (ACL) and more (see website).

NHS: Imperial College Healthcare NHS Trust

Adult/Paediatric: A&P

Mr Salvatore Russo

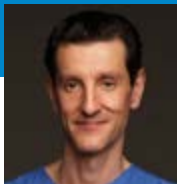

FRCS (NS), MD (Hons)

Consultant Spinal Neurosurgeon

Special Interests: Complex spinal reconstructive surgery for trauma, tumour and degenerative disease.

NHS: Imperial College

Adult/Paediatric: A

Mr Naveethan Sivanadaraja

FRCS (Orth), MBBS, BSc

Foot & Ankle Orthopaedic Consultant

Special Interests: Trauma and Orthopaedic Consultant specialising in Foot and Ankle surgery.

Adult/Paediatric: A

Mr Matthew Solan

FRCS (Tr&Orth)

Consultant Orthopaedic Surgeon

Special Interests: Foot and ankle complaints in adults and children. He has a particular interest in the treatment of stubborn heel pain. He established and runs the UK's first 'One-Stop' clinic for LFAC for heel and ankle problems such as ankle tendonitis and plantar fasciitis.

NHS: Royal Surrey County Hospital

Adult/Paediatric: A

Mr Elliot Sorene

MBBS, FRCS (Tr and Orth), EDHS

Consultant Orthopaedic, Hand & Upper Limb Surgeon

Special Interests: Hand, wrist and elbow surgery, trauma and elective in both adults and paediatrics. Arthritis surgery, joint replacements, arthroscopic surgery and reconstruction surgery.

Adult/Paediatric: A&P

Mr Robin Strachan

BSc (Hons), Physiol, MBChB, FRCS Ed

Consultant in Orthopaedics and Trauma

Special Interests: Orthopaedic surgeon specialising in knee surgery.

NHS: Imperial College NHS Trust

Adult/Paediatric: A

Professor Mark Tagoe

BSc(Hons), MSc, FCPodS

Consultant Podiatric Surgeon

Special Interests: Foot and ankle surgery along with lower limb sports injuries and diabetic limb salvage.

NHS: Chelsea and Westminster Hospital NHS Foundation Trust (West Middlesex University Hospital)

Adult/Paediatric: A

Mr Tomas Tickunas

MD, FRCS Plast, Dip Hand Surg Eur

Consultant Plastic, Orthoplastic and Hand Surgeon

Special Interests: Adult and Paediatric Hand Surgery (Elective and Trauma), general Plastic Surgery (including correction of deformities, removal of lesions including skin cancer), Paediatric Plastic Surgery and Complex Microvascular Reconstruction (Lower Limb, Major trauma, Hand, Chest reconstruction).

NHS: Queen Victoria Hospital, East Grinstead
Royal Alexandra Children's Hospital, Brighton

Adult/Paediatric: A&P

Mr Dimitrios Tsekes

FRCS (orth), FEBOT, MSc

Trauma and Orthopaedic Consultant

Special Interests: Shoulder sports injuries, shoulder replacement, arthroscopic rotator cuff repair, arthroscopic stabilisation procedures, cartilage injuries treatment, fracture clavicle, acromioclavicular joint injuries, fracture shoulder, fracture elbow and more.

Adult/Paediatric: A

Evangelos Tsialogiannis

CCT (Tr&Orth)

Consultant Orthopaedic Surgeon

Special Interests: AMIS Hip Replacement, Knee Reconstruction and Sports Knee Injuries.

Adult/Paediatric: A

Mr Akash Patel

BSc (Hons), MBBS, MRCS, MSc, FRCS (Tr&Orth), Associate Professor (UCL)

Consultant Sport, Trauma and Orthopaedic Surgeon

Special Interests: Hip, knee and sports surgery. Hip and knee injections, arthroscopy and replacement. Knee ligament reconstruction.

NHS: Royal Free London NHS Foundation Trust

Adult/Paediatric: A&P

Miss Lauren Uppal

MBChB, MRCSm FRCS (Plast), Dip Hand Surg

Consultant Plastic Surgeon

Special Interests: Hand surgery (Dupuytren's, carpal tunnel syndrome, cubital tunnel syndrome, ganglions, trigger fingers, rheumatoid arthritis, osteoarthritis, Raynaud's). Hand trauma (tendon and nerve repair/reconstruction, fracture fixation, post trauma reconstruction for impaired hand function). Skin surgery (moles, cysts, lipomas, skin cancer, scar revision). Aesthetic surgery (tummy tuck, breast surgery, prominent ears, eyelid surgery, botox, fillers).

Adult/Paediatric: A&P

Mr James Youngman

MBBS, FRCS (Orth)

Consultant Trauma and Orthopaedic Surgeon

Special Interests: Trauma, foot and ankle, hip and knee surgery, sports injuries and deformity correction.

★★★★★ 5

Wonderful hospital filled with excellent, dedicated and wonderful people caring for our children. Thank you

31 Oct 2024 verified patient

Patient seen for: **General Plastic Surgery**

★★★★★ 5

I needed surgery to correct a deviated septum in my nose. I received excellent care at St John & Elizabeth, from the consultant and pre-admission appointments beforehand through to the day surgery and check ups afterwards. Highly recommend. The staff are helpful, polite, caring and professional.

14 Feb 2023 verified patient

Patient seen for: **Rhinoplasty (Nose Job)** **Deviated Septum**
Septoplasty

★★★★★ 5

The hospital is well run - I rarely had to wait more than a few minutes for processes and next steps. There was no delay in tests being taken and they facilitated my surgery decision to happen within one week. The finance team are helpful with facilitating payment, the nursing team are excellent with bedside care, the admin team are on top of the process and where I need to go (had to move from day room to overnight room). The nursing team are very good, on top of the care and very gentle and understanding. They get their point across and understand when you are uncomfortable and do their best to help. I was very impressed with the team, the hospital process, the cleanliness of my room - everything was spotless and progressed seamlessly. I have been to the private wing of other NHS hospitals but very pleased with my experience at St John & St Elizabeth.

Reconstructive Microsurgery

Reconstructive microsurgery uses advanced techniques to restore the form and function of tissues.

Often used to treat complex wounds, restore function, and improve appearance after trauma, cancer surgery, or congenital abnormalities.

Microsurgical techniques can be used for a variety of purposes, from reattaching fingers to transplanting bone or muscle. They also play a vital role in reconstructing breast tissue after a mastectomy, or restoring facial features such as building a new nose.

Services include:

- **Tissue transplantation:** A patient's own tissue, such as skin, fat, muscle, or bone, is transplanted to rebuild another part of the body.
- **Operating Microscope:** The procedure is performed on a tiny scale with the aid of magnifying tools.
- **Blood vessel reconnection:** It often involves reconnecting blood vessels that are only a few millimetres wide.

Call now: 0207 806 4060 | Email: info@hje.org.uk

Reflux Specialist

Our specialist acid reflux clinic in London is here for patients who are suffering from reflux symptoms where medication is not working and symptoms are persistent.

Our private reflux clinic offers specialist surgical options for the treatment of gastro-oesophageal reflux disease (GORD). GORD is usually caused when the muscle at the bottom of the oesophagus becomes weakened. Normally, this ring of muscle opens to let food into your stomach and closes to stop stomach acid leaking back up into your oesophagus. When patients have GORD, this ring of muscle has usually become weaker so that stomach acid is no longer contained within the stomach.

Patients seeking a private reflux specialist in London will be treated with state-of-the-art facilities and treated in our modern consulting rooms. Our reflux consultants have vast experience in treating persistent GORD symptoms by utilising the latest surgical advances.

If you have, or think you might have GORD, and would like some expert advice, book an appointment with one of our consultant reflux specialists. They may recommend some tests to progress your diagnosis and will create a management plan for you to follow.

Services include:

- Fundoplication
- RefluxStop
- LINX system for reflux

Call now: **0207 806 4060** | Email: **info@hje.org.uk**

Mr Panagiotis Drymouisis

MD, PhD

Rheumatology encompasses a wide range of disorders, including arthritis, osteoporosis, lupus, and gout.

Our renowned Rheumatology Department at St John & Elizabeth Hospital offers a comprehensive approach to managing these conditions, focusing on improving patients' quality of life through personalised care plans.

Our team utilises advanced diagnostic techniques to ensure accurate diagnoses, followed by tailored treatment plans that may include medication, physical therapy, and lifestyle adjustments. Our holistic approach aims not only to alleviate symptoms but also to address the root causes of each condition, offering solutions for pain management, inflammation reduction, and preservation of joint function.
